11th Meeting and Seminar
Volume in lingua Inglese - Si tratta di un convegno focalizzato sulle prospettive delle nano strutture (in particolare quelle ceramiche) per quel che concerne gli studi di superficie, i trattamenti, i rivestimenti tradizionali e nano- compositi, nonché le capsule porose , adatti per applicazioni cliniche le più disparate. Viene riportata ampia

letteratura ed illustrati interventi chirurgici.- A meeting-seminar focused on the perspectives on nanostructures (particularly based on ceramics) relative to surface investigations and treatments, traditional and nano-composite coatings, porous scaffolds, suitable for a lot of clinical applications. A wide literature is reported and surgical interventions illustrate.
